Good News To Share About PRC of Metro Richmond

In September the Pregnancy Resource Center of Metro Richmond opened a Midlothian office. Through generous giving from the community they will now be able to serve this high need area.

The latest statistics (2017) for the number of abortions performed at the three local abortion clinics surrounding PRC decreased 31%. While the number of lives terminated is still shocking PRC is making an impact and saving lives.

In 2019 PRC had 2091 total visits, performed 463 free ultrasounds and provided 481 bottles of prenatal vitamins.

The PRC assists moms and dads in preparation for parenting. They provide parenting classes, support groups, baby formula/diapers, and Bible study.

I'm excited to see next years numbers once the Midlothian office has a full year serving the Southside.
